TAFT IS OUT WITH A DEFENSE

Condemns Negro Officers And Tells Reasons Why

[By Telegraph to The Age]

Washington, Dec. 6. — Secretary Taft in his annual report gives an airing to the Brownsville (Tex.) affair of Aug. 13 and the discharge of the colored battalion of the Twenty-fifth infantry. He defends the course of the war department in the matter and is severe in his condemnation of the noncommissioned officers of the battalion for failing to discover and report the perpetrators of the outrage, and of the enlisted men of the battalion who, by maintaining silence when, as he says, they must have known the guilty parties, connived at the crime. He insists that no obligation of comradeship should prevent the men from telling the truth, but indicates that such of the men as are guiltless may be re-enlisted. Secretary Taft says:

The order of dismissal has attracted much attention and has been severely criticised as unjust because it condemns many innocent men to undeserved punishment. It is not improper therefore in this report to review the case and state the reasons which not only justified it but made it necessary.

First—Out of a battalion of 170 enlisted men in the army of the United States, from 9 to 20 men formed a preconcerted plan to revenge themselves upon the people of a town in which they were stationed for the insults they felt that the townspeople had heaped upon them. In accordance with the plan, they left their barracks under cover of darkness—about midnight — and proceeded to discharge their weapons into the houses of the town for the purpose of killing those against whom they felt a grievance. They came very near killing some one or more of three women and seven children who were sitting or sleeping in two of the lighted rooms into which they fired. They, in fact, did kill one man, wound another, and seriously injure the chief of police. They accompanied their firing with expressions indicating the malice which prompted their action.

Second—Within 10 minutes or more after this crime was committed, when the whole garrison was aroused by the noise of the fusillade and by the call to arms which followed it, the guilty men returned to their places, and must have been among the last men to take their places, for the reason that the firing continued after the formations had begun. The absence of the rifles from the racks could not have escaped the attention of the sergeants who had the keys; and yet all the sergeants swear that the rifles were in the racks, untouched. Before the next morning all the guns were clean. It is impossible that many of the battalion who did not take part as active members of the conspiracy to murder were not made aware by one circumstance or another of the identity of the persons who committed this heinous offense.

Third—Instead of giving to their officers, or to the military inspectors who were directed to make the examination, the benefit of anything which they knew tending to lead to a conviction of the guilty persons, there was a conspiracy on the part of the many who must have known something of importance in this regard. Thus the murderers were taken back into the battalion and protected entirely from punishment.

These enlisted men took the oath of allegiance to the government, and were to be used under the law to maintain its supremacy. Can the government properly therefore keep in its employ for the purpose of maintaining law and order any longer a body of men, from 5 to 10 per cent of whom can plan and commit murder, and rely upon the silence of a number of their companions to escape detection? Because there may be innocent men in the battalion, must the government continue to use it to guard communities of men, women and children when it contain so dangerous an element impossible of detection? Certainly not.

The members of this battalion were not dishonorably discharged. They could not have been so discharged except after a trial. They were discharged for the good of the service, as the technical phrase is, "without honor." The suggestion made in some quarters that this battalion is soon treated in this way simply because the men are colored loudly merits notice. The fact of their color and the racial feeling aroused between them and citizens of Brownsville may have been the cause and furnished the motive, but certainly not a justification for the plan to murder men, women and children; but to this extent only is consideration of the circumstances is the fact of their color at all relevant.

It is possible that evidence may be produced in future which will lead to reinstate entirely some of the men now discharged, both from participation in the crime and assistance in the conspiracy of silence to prevent the detection of the offenders; and wherever such facts are shown in respect to any one affected by the order they will be brought to your attention, and, I understand, will render such persons eligible to re-enlistment.

WILL KEEP JAPS OUT AS A TEST CASE

[By Telegraph to The Age]

San Francisco, Dec. 6.—In accordance with instructions received from Attorney General Moody, United States District Attorney Robert T. Devlin held a conference in his office with President Aaron Altmann of the board of education and city attorneys, to discuss the exclusion of the Japanese from schools attended by white children, to test the statute which requires the segregation of children of Mongolian parents in separate schools. Proceedings technically known as "controversy without action" will be brought either in the supreme court of California or in a federal court.

Mr. Devlin said that the whole issue resolved itself in the question whether state statute is in violation of the treaty of Japan. He is of the opinion that the law discriminates against the Japanese, inasmuch as German, Irish and other children of foreign parentage and descent are not segregated in separate schools, whereas the treaty with Japan guarantees the Japanese equal rights and privileges with the aliens from other lands. It is on this basis that the United States district attorney is proceeding, and as only the points agreed upon will be submitted, an early decision is expected from the courts.

President Altmann of the board of education said: "With all due deference to President Roosevelt, I must say that it surprises me that with all the minuteness of detail of information furnished by Victor H. Metcalf, who came to San Francisco as the special representative of the president in this matter, and who upon his return to Washington must have undoubtedly placed all of this information at the disposal of the chief executive of this country, there should be such a display of ignorance on the part of President Roosevelt as to state in his message that Japanese pupils are barred from the public schools of this city. Far from barring [illegible] children from the public schools [illegible] the board of education has merely said to them, 'Attend this particular school and there find all the advantages and facilities which are provided for our own white children.'"

SAYS THERE IS NO ABJECT POVERTY HERE

Man Who Knows Coshocton Finds Comfort General

"One thing which makes me happy when I think of the approaching Christmas season" said a Coshocton man to an Age reporter this morning "is that I do not know of a singgle asec of positive destitution in the city." (And the man who made the remark knows Coshocton as few people do) "Of course there is poverty, there are sick people who need comforts which the family purse is not able to provide, there are children who may have empty stockings unless some charitably disposed people want to play Santa Claus there are countless gaps in many households which outsiders must stop in and fill if they are to be filled; in short there is plenty of work for the Christmas spirit to do although as I have said there is practically no abject poverty."

One Way Out of It.

Washington. Dec. 6.—Inquiry disclosed the fact that the legal proceedings to be taken in San Francisco by the United States district attorney in the matter of the admission of Japanese to the public schools of that city without discrimination were inspired by Secretary Root, who expressed the opinion that it would be one way of effectually disposing of the controversy. That the president's views on the subject meet with the hearty approval of the Japanese government was made evident when Viscount Aoki, the Japanese ambassador, said that he had personally thanked the president for what he had said.

THREW ACID IN EGGSHELLS IN HORSES' EYES

[By Telegraph to The Age]

Chicago, Dec. 6. — In the trial of Cornelius Shea and fellow labor leaders before Judge Ball in the criminal court, Joseph Schultz, an alleged "slugger," was called to the stand by the state. He was questioned about the methods employed in the teamsters' strike.

Schultz, who with Albert Young turned state's evidence, declared on the stand that President Shea had told him to break the legs and arms of the strikebreakers, and especially to attack the negroes. When this means of bringing about desired results did not work satisfactorily, Schultz asserted that Shea ordered the hire pickets to throw eggs filled with acid at the horses being driven by non union men. The acid throwers, according to Schultz, were responsible for many runaways and were considered a great aid in the fight against the employers.

Schultz said: "Myself and others pickets were called into the picket headquarters and our captain gave us a number of eggs. The contents had been removed and the shells filled with acids. Shea was there and told us that if we carried out the plan proposed it would create a stir among the strikebreakers. Shea said that if this scheme was not successful he had another in mind that he believed would do the work. He said he had seen a man squirt acid from a syringe at a team of horses being driven by a nonunion teamster and that six policemen were unable to stop the runaway that resulted in State street, which was crowded with traffic at the time."

POOR ROSCOE BOY DIED A MILLIONAIRE

Capt. Carhart Attends Funeral Of Chas. Donnelly

Charles Donnelly, a youth of poor parents, reared by the late Dr. Johnston, of Roscoe, and who left Roscoe to go to Pittsburg, lies dead there, many times a millionaire. Capt. J. M. Carhart, his life long friend, left this afternoon to attend his funeral.

Mr. Donnelly is well remembered by many of the older residents as a bright and progressive boy. He went to Pittsburg started humbly, got into the coke and coal business, accumulated money and property, became a banker, and grew to be one of Pittsburg's rich men, and to be considered a rich man in that city of millionaires means to be rich beyond all dreams of avarice. His career reads like a romance of a Midas, but it was the result of hard work and brain power.

No Drunks Will Travel On Panhandle

The following dispatch from the Associated Press was received at this office today:

Lima, O., Dec. 6—A new order creating much comment has been received by Pennsylvania agents here, commanding gthem not to sell a ticket to any destination to a drunken man or woman, showing a stage of intoxication noticeable to others. No such person is allowed to be put on a train except under a guardian, and conductors are notified to refuse tickets from such passengers if presented before boarding a train.

Agent W. H. Kipp, when interviewed regarding the order, states that it was an old order that had always been in existence. He says he often refuses tickets to passengers—who are unfit to travel or to associate with respectable people.

A Stove that Pays for Itself

That's what the New Method Gas Range does. How? By saving you 25 per cent. of your gas bill.

The New Method Gas Range

Is made of key steel instead of cast iron. This steel being highly polished does away with all friction on the passage of the air and gas through the burner allowing a larger quantity of air to be taken up and mixed properly with the gas than can be in the thick, rough cast iron burners. The more air burned the less gas. Accurate tests made by gas experts in different parts of the country have shown an average of 25 per cent. less consumption of gas from the New Method, than from any other burner.

The steel plates in New Method Ranges are coated on both sides with enamel baked on so hard that it is not effected by heat or will not rust. Steel coated in this way will outwear cast iron and then they're the easiest to clean.

New method ranges are guaranteed for five years. Sold by

FLOODS RAGING.

Southern Arizona People Take to the Hills For Safety.

Solomonville, Ariz. Dec. 6—As the result of 30 hours' steady rain over southern Arizona the mining town of Clifton with 6000 population is swept by a terrific flood and hundreds of people have fled to the mountains for safety. Owing to disabled wires details are hard to obtain but the known dead reaches 18 and will doubtless be much larger. A large majority of the population are Mexicans and Italians who live in squalid huts, now inundated. The town is built in three sections Chase Creek, North and South Clifton. The catastrophe commenced with the breaking of a big reservoir in the mountains above precipitating a vast flood upon the Chase Creek section

Was Murdered.

Nashville, Tenn., Dec. 6—It developed that William Ardley of Brooklyn, N. Y., who was found dead Thanksgiving day and whose body has been sent home, was murdered, if a confession made by Atkins Harmon is true. It was supposed that Ardley had met death by a fall down a stairway. The coroner's jury investigated the affair and returned a verdict of accidental death, and Ardley's body was sent to Brooklyn. It has since developed that Ardley was murdered and robbed and Atkins Harmon, Sam Taylor, Arthur Morton and Grip Jones, white men, were arrested charged with the crime. It is said Harmon has confessed, implicating the others.

CIVIL SERVICE.

Sentiment In Favor of Merit System Steadily Growing.

Washington, Dec. 6. — The annual report of the United States civil service commission states that there is still too great a disposition on the part of persons in the classified service to participate actively in politics in spite of executive orders. The sentiment in favor of the merit system is steadily growing not only in congress but among the states, four of which have adopted civil service laws. "The government can not hope to compete with private employers unless it pays salaries that measure up fairly well to the standard of private business," says the report in calling attention to the difficulty in securing eligibles for the postoffice service in the various parts of the country, notably in the west and south.

cost only about one-tenth of the total expense of installing a power plant of your own, and they can be operated to much better advantage. There is no waste of power. Each machine or group of machines is operated by a separate motor—turned on and off as needed. Power used in the old way to drive shafting over idle machinery in some instances has been found to amount to 50 per cent. of the entire load. This is a dead loss.

Space Is Economized

not only in the engine and boiler room, but all through the factory. The shop is cleaner. The work is electrified—is quickened in its pace. Risk of break-downs is reduced to a minimum. THE GRANGE

Conducted by
J. W. DARROW, Chatham, N. Y.,
Press Correspondent New York State Grange

WHO MAY BECOME MEMBERS

Question of Eligibility Discussed by a State Master.

In a recently issued circular letter to Ohio granges State Master Derthick says:

The Order is becoming so justly popular, not only because of its social and educational features, but for the systematized opportunity it offers for effective co-operation, that men and women of all occupations are knocking at our gates for admission. Page 100 of the Digest, paragraphs 1 to 6, describes who are eligible. The declaration of purposes says that "many are excluded by the nature of our organization, not because they are professional men or artisans or laborers, but because they have not a sufficient direct interest in tilling the soil or may have some interest in conflict with our purposes.' Page 100, paragraph 1, of the Digest declares that 'any person engaged in agricultural pursuits and having no interest in conflict with the purposes of the Order and of proper age (fourteen years) is eligible." Paragraph 2 interprets the phrase "interested in agricultural pursuits" to mean 'that a person must be engaged in agriculture to a greater extent than in any other business, or, in other words, his leading business must be agriculture." Thus it will be seen that each subordinate grange will, under the law, decide upon the eligibility of its applicants. The ruling has always been that in rural communities teachers, physicians and ministers are eligible, as they have, as a rule, no interest that conflicts with the purposes of the Order and may always be effective in promoting the chief feature of the grange—education. It has always proved unwise to solicit as a member one who is known as "a disturber" in a community, "a person hard to get along with" or one to whom there is considerable objection.

Beyond question, the original intent of the founders of the Order was that only actual farmers, tillers of the soil, should be entitled to membership, but it has come to this—that there are not more than two or three states in the Union where this condition is enforced at all, and we doubt if half the subordinate granges in those states abide by the regulations. Just why the national grange should permit such a condition as to membership to remain in the governing rules of the Order, only to be constantly violated, we do not know, but there it is. It is left to the interpretation of each individual grange, with the result that a good many who are not "engaged in agricultural pursuits" at all are admitted to the Order. Either the word "and" should be changed to "or" in paragraph 1 of the Digest (making it read "or having no interest in conflict," etc) or else every grange should be made to live up to the present requirements.

FARM LABOR QUESTION.

National and State Granges Should Help Farmers Get Laborers.

One of the most puzzling propositions that confront farmers today, says Hon. George B. Horton, master of the Michigan state grange, is that of obtaining help to carry on the different branches of agricultural operations and housekeeping. Our country, with all its industries and resources, is witnessing a wonderful development, and this provides attractive opportunities for farm bred boys and girls and also for all those who labor for hire. These conditions have drained the country to a distressing condition. It is not a question of wages, but one of where the help can be found. The records year. This record is ... yet practically all of this immense army of people have gone to other sources of action than the farms. Inquiry reveals the fact that many of these people are gathered in on arrival by agents of large contracting interests and sent direct to different parts of the country, while the remainder from lack of direction very naturally settle down in the large cities to aggravate an already congested population.

Under these conditions it becomes necessary to look about us for relief. The soil must be tilled to furnish food as sustenance, and, inasmuch as agriculture is the basic industry of our state, it seems highly proper that state aid should be sought. It seems that the time has come when the work of the state labor commissioner should be enlarged, with suitable appropriation provided so that an agency can be established at Castle Garden for the purpose of directing unobjectionable immigrants to the farms of our state. Co operation between such agency and the farmers' organizations of the state would complete the system. The larger part of immigrants come direct from the farming sections of Europe and no doubt would prefer farm work here if there was a system for distribution established. The plan being in line of relief to a state necessity, it is recommended that our state grange executive committee investigate the matter to ascertain if relief can come from the suggested source and, if necessary, to ask legislation in its behalf.

Grange Fire Insurance In New York.

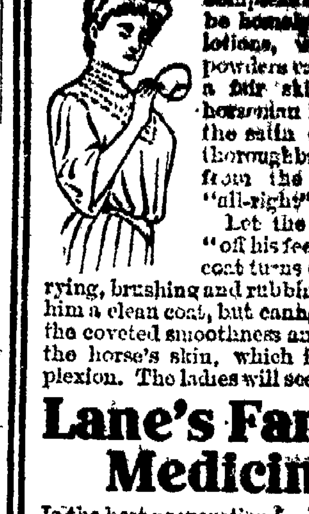

The amount of fire insurance in grange companies in New York state is increasing by leaps and bounds. At the last report of the central organization, which was on Jan 1 last, a grand total of $100,986,495 was in force in twenty-seven companies in this state. The large amounts are carried in Jefferson and Lewis counties—namely, $12,122,851, St Lawrence and Franklin nearly $8,500,000, Chemung and Chautauqua over $7,000,000. The wonderful success of this insurance is based largely on the fact of economical management of local companies and the care with which risks are taken.

How to Enjoy the Circus.

There ain't much pleasure in this life fer men as old as me—that is, a feller thinks they ain't when he is sixty-three. O' course, he likes to smoke his pipe an' set around an' gas an' argue with the boys to git his leisure time to pass. A man who's settin' 'long in years—too weak to hoe or plow, fer pleasure of the good old kind—has small chance anyhow. But there's one thing I like to do once in a while, I shore enjoy—it's goin' to a circus with some poor, big eyed small boy. I always like to have it be the first show he's been to. I like to watch them big eyes snap. Oh, they always do. I like to see him stare an' clap an' crane his neck around an' see him eatin' peanuts, throwin' shells down on the ground. It don't seem very long ago that I was eight or nine, nor long since the first show I saw seemed simply grand—divine. I 'member how I set up there jest in a fit of joy. You see, I know the feelin' that comes to the big eyed boy. I don't care much for circuses like once I used to care. But, friend, I get my pleasure ta'in' little fellers there. An' while I set enjoyin' it—I mean that kid's real joy—I almost cry to think that I can't be once more a boy.—Denver Post.

AN APPEAL TO WOMEN

Professor Alexander Haig, M.D., Physician to The Royal Hospital for Women and Children, of London, one of the world's greatest authorities, has proven that most diseases, especially diseases of women, Menorrhagia and Dysmenorrhoea (painful and irregular menstruation) are plainly caused by *uric acid*.

For the benefit of all ailing, weakly women, we urge his explanation of common sense.

HOW URIC ACID CAUSES WOMEN'S DISEASES

Many women overwork themselves, are nervous and worry, and many others do not take proper care of themselves during the menstrual period.

From these causes comes disease. The uric acid always present in the blood is deposited in little sharp grains like sand and lodge throughout the body.

Imagine the pain and irritation they cause in the delicate female organs. This is the cause of women's weaknesses.

To all women we appeal with the proof of their greatest specialists. We urge the remedy of common sense.

LIFE PLANT IS WOMAN'S ALLY

LIFE PLANT embodies the greatest wisdom of science in driving uric acid from the blood—in dissolving it out of every part of the body.

It purifies the blood, encourages the generative organs to their natural healthy functions, relieves all backache, lassitude and nervousness, and brings perfect health.

LIFE PLANT is not a patent medicine. It contains nothing harmful. Its ingredients are used by the world's greatest specialists.

Any ailing woman who desires to regain perfect health, who is willing to use her own good judgment, may have a free copy of a valuable booklet on "Good Health." Write for it today.

THE APPROACH OF URIC ACID DISEASES

Painful, profuse, suppressed or scanty menstruation, backache, bearing down feeling, nervousness, lassitude (tired feeling), sleeplessness, poor appetite, headache, constipation—all show uric acid at work.

If you have any of the above symptoms, act at once ... LIFE PLANT before serious womb or ovarian ... ble comes. If you are suffering from disease, ... self in a common sense way—drive out the ... disease—uric acid.

Tricycle Airship.

Having invented a tricycle which is propelled by a screw acting upon the air, Professor William H. Pickering, Harvard astronomer, will exhibit for the first time the vehicle at the show of the Aero club to be held in New York on Dec. 1 to 8, says a special dispatch from Cambridge, Mass., to the New York Herald. The tricycle is manipulated by pedals, the difference from former vehicles being that the pedals instead of transmitting the force through gears to the axles gives motion to a screw propeller, which, acting on the air, gives motions to the tricycle. The speed is estimated at ten miles an hour.

THE READER IS THE KING OF MAGAZINES

The world is full of magazines today, some merely mediocre but others filled from cover to cover with good things and of the later class none are better than "The Reader" which the Bobbs-Merrill Company puts out once each month to the increasing satisfaction of its large family of readers.

The December number is just out. It has short stories of remarkable cleverness and well sustained interest, an article on the South American Question by Edward Hale who knows well whereof he writes, shorter things by Agnes Repplier and Gilbert Chesterton both well known to the steadily-growing arm of magazine readers, brilliant editorials and clever illustrations galore as well as full page pictures of Ik Marvel and Mark Twain which will gladden the hearts of the lovers of those two genial souls.

In short "The Reader" is a delightful magazine and one which will be read with much pleasure.

This is the magazine that is a part of the splendid special Christmas offer The Age is making.

OUT OF SORTS.

People Not Really Sick Are Often Most In Need Of Care.

The people who actually are most in need of kind words and medical treatment are not those who are really sick, but just "out of sorts."

The old-time energy, force, strength and happy spirits are lacking; the physical and mental powers are flagging; there is poor appetite, and they cannot get the good out of the food they eat. In nine cases out of ten, this results directly from a weakened stomach, and no other treatment equals Mi-o-na to restore strength and health.

When the nerves and muscles are weak, if there is sleeplessness, irritability, and specks before the eyes, when the head aches and there is a dull pain in the back, and there is any distress and heaviness in the stomach dizziness, and sometimes nausea, the use of Mi-o-na stomach tablets for a few days will make a world of improvement, and continued use for a reasonable time will restore perfect health.

These tablets are not more digestives; they absolutely strengthen all the organs of digestion, so that there is good appetite, perfect digestion and strong nerves, when they are used.

A large box of Mi-o-na stomach tablets is sold for 50 cents by C. E. Anderson, with an absolute guarantee that they will be successful in curing digestion and restoring health, or the money will be refunded. Ask C. E. Anderson to show you the liberal guarantee he gives with every 50 cent box of Mi-o-na.

BROKEN OFF

Were Negotiations Between Wright Brothers and France.

Paris, Dec. 6.—The report that Wright brothers, the aeronauts of Dayton, O., are still negotiating with the French government in the matter of their airship, is incorrect. These negotiations were definitely broken off several months ago. The Wrights submitted general plans to the government guaranteeing a flight of 15 miles and asking for $200,000. The height of flight guaranteed was only 75 feet. As a height of 900 feet is considered essential for war purposes the government declines to give more than $40,000. The recent development in aeroplanes, especially M. Santos-Dumont's demonstration of principle, has opened a field for rapid progress with heavier-than-air machines. The chief secret of the Wright machine is the method of maintaining the equilibrium. This is accomplished by control of the angle and extension of the wings instead of by side rudders, as in the Santos-Dumont machine.

Shaw to Holders of Bonds.

Washington, Dec. 6.—The secretary of the treasury gave notice to the holders of United States bonds that the interest maturing on the several dates between and including Jan. 1 and May 1, 1907, will be prepaid without rebate on and after Dec. 15, 1906. Checks for the interest due Jan. 1 on registered bonds will be mailed to the owners on or before the 15th instant. The amount of interest which may thus be prepaid is nearly $12,000,000. In anticipating this payment Secretary Shaw stated that he was influenced by the fact that the treasury collected surplus revenues amounting to $7,000,000 in the month of November, and that the current month is also likely to be a month of surplus receipts.

The number of foreigners in China is estimated at 40,000.

IN THE PUBLIC EYE

CHARLES E. COURTNEY, WHO KNOWS ALL ABOUT ROWING.

Recent rumors of the resignation of Charles E. Courtney, the famous Cornell coach, have drawn some out of season attention to a man who is perhaps the most celebrated rowing coach in the world. Courtney began his career as a trainer or coach in 1875, when he coached a class of young ladies at a seminary. He went to Cornell in 1883. With the exception of 1884, he has been Cornell's creator of oarsmen ever since, and he has led the Ithacan boys to a long and almost unbroken series of victories.

Millersburg Still Thirsty

Millersburg, Dec. 6—Mayor Shaw handed down his decision in the case of the State v. John P. Thomas Wednesday afternoon. He found him guilty and assessed a fine of $75 and costs and to stand committed to the Columbus workhouse until paid. The attorneys for Thomas will carry the case up. The defendant was charged with selling a drink called "vivo" in Millersburg, a dry town, which was shown by analysis o fthe state dairy and food chemist to contain 2 1-2 per cent. of alcohol and was manufactured by a brewery in Milwaukee.

Death Penalty Commuted.

Washington, Dec. 6.—The president commuted to life imprisonment the sentence of death imposed on Arthur Adams and Robert Sawyer, negro members of the crew of the schooner Henry A. Berwind, who were convicted of mutiny and murder aboard that vessel about a year ago. The men were tried at Wilmington, N. C., and are in jail at that place. Another member of the crew who was convicted on the charge was executed.

Hurt In a Fire.

Gadsden, La., Dec. 6.—Five persons were hurt in a fire which destroyed the boarding house of John Cooper. Their names are: John Montgomery, Mrs. Montgomery, hip broken; Mrs. Marshall, broken leg; Miss Willa DeMann, perhaps fatally hurt about the back.

Sick List.

Will Corder, the plumber, was able to be out for the first time this morning after being confined to his home since last Monday with tonsilitis.

Mrs. Charles West is ill at her home on Chestnut street.

Mrs. S. M. Miller was called to Chicago today by the serious illness of her daughter Mrs. E. F. Stockum, wife of Atty. Stockum formerly of this city.

POSITIVE PROOF

Should Convince the Greatest Skeptic In Coshocton.

Because it's the evidence of a Coshocton citizen.

Testimony easily investigated.

The strongest endorsement of merit.

The best proof. Read it:

Frances Gorman, 820 Orange st., Coshocton, Ohio, says:—"For the sake of others who may be suffering I am glad to tell what Doan's Kidney Pills did for me. I suffered more or less since girlhood. My back was very weak and the pains in it at times were very severe. There was a wretched bearing down pain in the region of the kidneys, I was tired, languid and played out and suffered from dizziness and heart palpitation. Nothing I ever used seemed to help me and I was feeling quite bad when a relative brought me a box of Doan's Kidney Pills. I commenced using them and they relieved me greatly, so I continued with the treatment, using several boxes of the remedy, which I procured at Siegrist & Williams' drug store and every dose I took seemed to help me. I am now cured and have not had any return of my old troubles ina long time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on *Materia Medica* who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed *free* to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompained with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the diseases that lead up to consumption, if taken in time.

LET us send you some of our Sealshipt Oysters, the kind that come in Patent Carriers—ice and oysters separate—all the flavor kept in—all the contamination kept out. The kind of oysters you have always wished you could get. No chemical preservative is ever used with Sealshipt Oysters and they are guaranteed absolutely pure, clean and fresh. They are entirely different from the "doped," watered oysters, shipped in slimy, unclean tubs.

Sealshipt Oysters are full measure solid meats and just as cheap as the "watered" tub oysters at a lower price. If you want to pay a high price for water, buy the tub oysters; if you don't want to pay for water, but do desire to get full value for your money, let us send you some of our delicious Sealshipt Oysters. You don't know how good oysters can be until you have tried them.

Handsome Ware is on Display

The show window of the Siegrist & Williams pharmacy contains a number of fine specimens of Spellacy-Raiff enamel ware. The ware is decorated with a neat figure, and the manufacturers claim that it will not come off. They say that heretofore, no chemical had been discovered that would burn into the enamel and remain there permanently. Any figure or flower can be burnt into the ware, and it is very handsome.

A TRIAL PACKAGE MAILED FREE

There is no reason—surely no good reason—why any sufferer, man, woman should continue to suffer with piles when a reputable company of druggists have placed in every high-grade cure for this dread disease at a price within the reach of the poorest. They have done more. They offer to relieve the sufferer temporarily and start him well on the way to recovery, by giving to any piles patient who sends his name and address, a free trial package of the Wonderful Pyramid Pile Cure, in a plain sealed wrapper. There are enough of the

Where Most Piles Sufferers End. Act Before Too Late.

curative elements in this trial package to greatly reduce the swelling of the affected part, to heal much of the soreness and ulceration. After the sample is gone your druggist will supply you with a box of the Pyramids for 50 cents.

Read Mrs. Bond's letter, which tells how she suffered and was relieved, if not positively cured, after using one 50 cent box.

"I have tried your pile cure and find them all you recommend them. I am very thankful to you for ever putting them within my reach, for I have had one box and I have not used all of them yet, and I feel like a new woman today, and I tell everybody about them. When I started them I could not walk across the floor, but now I can do my work all right. My work was a burden to me before I started them, but I can tell you that I can work much better now. You can rely on me I will tell everybody about Pyramid Pile Cure. Yours sincerely, Mrs. J. Bond, Toronto, Canada, 33 Pears Ave."

There is positively no risk or danger with the Pyramid Pile Cure, for there is nothing but curatives in the preparation. They are suppositories which placed in the affected part, act as a soothing ointment working upon the infected and ulcerous tissues, giving them new life and stimulating a stronger circulation of the blood.

By the use of the Pyramid Pile Cure the patient is cured at home without losing a day's work, no matter what his occupation. The cure may be accomplished in absolute privacy. We use no names for advertising purposes without the voluntary consent of the patient.

The Pyramid Pile Cure is quick, permanent and painless. Do not delay, but send your name and address today, and we will furnish you at once with the free trial package. Pyramid Drug Co., 73 Pyramid Bldg., Marshall, Mich.

The 50 cent size packages are for sale at all druggists.

For the Man Who Works at a Desk

Not Doctors, But the Right Kind of Food is What He Needs.

You work at a desk and you are shut up in an office all day long, your brain overworked, your body absolutely idle. You get "out of sorts" and your meals don't please you and what you eat doesn't agree with you.

Maybe you think you are sick, but you aren't. You need one of two things—exercise or better food, or both.

It may be impossible for you to get the exercise. It's the easiest thing in the world to get the right kind of food. Ask your grocer for Malta-Vita.

This famous food is the whole of the wheat thoroughly steamed and cooked in absolute purity and mixed with finest malt extract, a powerful digestive agent, which quickly converts the starch of the wheat into maltose,—malt sugar. Maltose is great food, and the weakest stomach digests and assimilates it without effort. The malted wheat, rolled into little flakes, is baked under such intense heat that when it comes from the great ovens, every flake is crisp, brown Malta-Vita—the most delicious food in the world. Always ready to eat.

A perfect breakfast is impossible without Malta-Vita and it's good three times a day. All grocers sell it. Now 30 cents per package.

BOLD RIFLE LEAVING HIS HORSES STAND

Freeman Tufford aged 50 years died suddenly of heart failure at his home a mile and half northwest of Newcoerstown in Coshocton county, Wednesday noon. He is survived by a wife and five children, two of whom are married.

Mr. Tufford had been hauling posts two hours before from the neighborhood of his son-in-law, Albert Porcher's residence, and complained then of not feeling well. Later he drove to the coal mine which he operates on his farm, and feeling worse, he abandoned the team here and went to his residence nearby. Within 30 minutes he was dead.

The funeral services will be conducted at one o'clock Friday afternoon and interment made at the U. B. cemetery at Newcomerstown.

Persian Ruler May Die Today

Persia, Dec. 6—It is likely that the shah will not survive the day. Even Dr. Damsch admits that nothing more can be done, and that the end is a matter at the utmost of 24 hours. A personage who has seen the shah says the monarch is in a semicomatose condition and has lost the power of coherent speech. The dropsical indications are spreading rapidly, and may at any moment touch the heart with fatal result, whilst the condition of the patient prohibits the camphor treatment. Dr. Damsch and a Persian doctor are passing the night at the bedside of the monarch

of the many lines of new goods which are shown in our show window will give you a slight impression of what we have again bought for our holiday purchasers.

We cannot, however, give you as good values, owing to the continued raise in prices of diamonds as we could last year. The importers are showing goods which grade much lower, and poorer in color, and cutting much inferior to that sold at the same price one year ago.

Watches are really lower in price than last season, and the very thin watches are much sought after, and are ready sellers. These watches are beauties and a radical departure from the thick and bulky timepiece of the past.

In jewelery, the many beautiful styles of bracelets are commanding the attention of the ladies, as since the advent of the short sleeve, a bracelet is almost a necessity...We have twenty-one different styles to show you; signet rings, dainty cuff links, and something unique in scarf pins that appeal to the masculine taste; also smoking and shaving sets, umbrellas, traveling sets, etc., are always useful and handy.

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

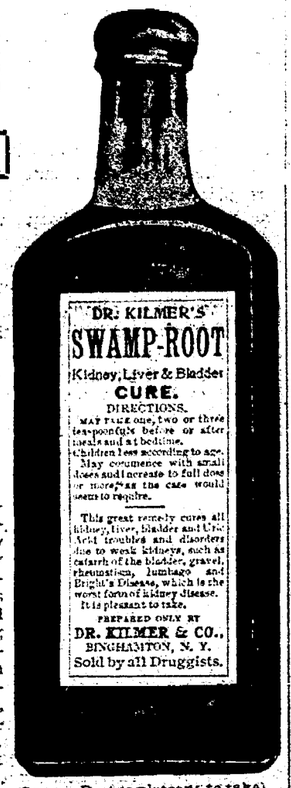

To Prove What the Great Kidney Remedy, Swamp Root, Will Do For YOU, Every Reader of "The Age" May Have a Sample Bottle Sent Absolutely Free by Mail.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

Didn't Know I Had Kidney Trouble

"I was out of health and run down generally; had no appetite, was dizzy and suffered with a headache most of the time. I did not know that my kidneys were the cause of my trouble, but somehow felt they might be, and I began taking Swamp-Root. There is such a pleasant taste to Swamp-Root, and it goes right to the spot and drives disease out of the system. It has cured me, making me stronger and better in every way, and I cheerfully recommend it to all sufferers."

Gratefully yours,
Mrs. A. L. Walker, 321 East Linden St., Atlanta, Ga.

(Swamp-Root is pleasant to take).

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering and many fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain and dull ache in the back, joints and muscles; make your head ache and back ache, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

To overcome these troubles take Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that has yet been discovered.

How To Find Out

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

EDITORIAL NOTICE.—So successful is Swamp-Root in promptly overcoming even the most distressing cases, that to Prove its wonderful merits you may have a sample bottle and book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample bottle.

In writing to Dr. Kilmer & Co., Binghampton, N. Y., be sure to say that you read this generous offer in the Coshocton Daily Age.

Swamp-Root is pleasant to take and you can purchase the regular fifty-cent and one dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

OF DYNAMITE ON THE CHAIR

Careful there. That package has got a dozen sticks of dynamite in it."

That was the remark a customer made in a local clothing store a day or two ago. He had been in the store quite awhile and had laid a package on a chair. He had made a number of purchases and was getting them together, preparatory to going home, when one of the clerks jogged the chair in going past it.

Needless to say everybody gave the dynamite a wide berth. There was enough of the explosive there to have blown the whole block sky-high and have scattered death and destruction over a wide area of the town. Suppose for instance, a clerk or customer should have knocked the package off the floor. Terrible to contemplate. The fact is, such things are exceedingly dangerous and if the man who carries such stuff is not afraid of it, it is merely a case of foolhardiness.

Plant Scorched.

Providence, R. I., Dec. 6.—Fire at the plant of the American and British Manufacturing company, successors to the Corliss Engine company, caused damage estimated at $150,000.

CUT TO THE QUICK.

At Logansport, Ind., Mrs Rosa Tewksbury, 30, was found dead under circumstances indicating murder.

Fire at Conneaut Lake, Pa., destroyed the Arlington, Brunswick and Thatcher hotels. Cause of fire unknown. Loss estimated at $30 000.

Atlanta-Birmingham Fire Insurance company of Atlanta, Ga., was put in the hands of a temporary receiver. Embarrassed by heavy Frisco losses.

In a blaze that started from an explosion of paper matches at the factory of F. A. Rathburn & Co., Indianapolis, Ind., eight young women were burned, four of them seriously.

William C. Andersen, 49, collection teller of the First National bank of Kansas City, Mo., is missing, and F. F. Swinney, the president, admitted that he is short $9,000 in his accounts.

Cincinnati-Chicago limited train on the Monon railroad was derailed two miles north of Frankfort, Ind., by a broken rail. Of 175 passengers on the train 18 were injured, but nobody was killed.

It is the best safeguard against indigestion, biliousness and dyspepsia, known to mankind. Hollister's Rocky Mountain Tea or Tablets, 35 cents. C. E. Anderson.

For New Judge

The prospects for securing another federal judge for Ohio, are now said to be very bright. A report favoring the same will be in the hands of the attorney general within a short time and then the matter will be up to the house committee on judiciary, and if the latter can be brought to act as is thought probable by the movers of the project then the house and the senate will both pass the bill.

The measure has the approval of both of the Ohio senators, who will look after the bill if one goes to the senate. In the house the work of pushing the bill through the judicial committee will devolve upon Congressman Nevin, of Dayton, while the floor work will be done by Congressmen Taylor, Longsworth, George Bell, Gannon and Dawes.

Newark Pastor Goes To Findlay

At a meeting of the congregation of the First Presbyterian church, Tuesday evening, a unanimous vote was passed to extend a call to become pastor of the church to Rev. Dr. Boyce, of Newark.

Dr. Boyce is pastor of the leading Presbyterian church of Newark, which by a peculiar co-incidence, is the same church Dr. John Montgomery, late pastor of the Findlay church came from. Dr. Montgomery preceded Dr. Boyce in the pastorate at Newark —Findlay Republican.

Scarcity of Care.

Mobile, Ala., Dec. 6.—Chairman McNair of the Mississippi river commission completed an inspection of the Mobile, Jackson and Kansas City road, and reports at more than a dozen towns are compelled to close down because they are not furnished cars. McNair declared the condition is inexcusable, and says that if the road is unable to get cars of its own it should "beg, borrow or steal a sufficient number to accommodate the traffic along the line."

Gummere at Tangier.

Tangier, Dec. 6.—The United States minister, Gummere, arrived here safely from Fez. It is reported that the sultan, on the advice of the Italian minister, who is supported by Gummere, is coming in state to Tangier to greet Admiral Touchard, the commander of the French squadron, to show the Mussulmans that he approves of Franco-Spanish program.

In the last seven years the consumption of beer has fallen from 120 to 70 gallons a head in Munich.

for all the ingredients entering into them are printed on the bottle-wrappers and their formula are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native, medicinal roots found growing in our American forests. While potent to cure they are perfectly harmless even to the most delicate women and children.

Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine of proper strength. This agent possesses intrinsic medicinal properties of its own, being a most valuable anti-septic and anti-ferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, "heartburn," foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific **for all diseases of the mucous membranes**, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. **In Chronic Catarrh of the** Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sages Catarrh Remedy. This thorough course of treatment generally cures even in the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate hang-on, or chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

If the sweet taste of the "Discovery," caused by the glycerine, is disliked, a few drops of lemon juice, orange or lime juice, added to each dose will make it agreeable and pleasant and will not in the slightest interfere with its benefical effects.

It's an insult to your intelligence for a dealer to endeavor to palm off upon you some nostrum of *unknown composition* in place of Dr. Pierce's world-famed medicines which are OF KNOWN COMPOSITION. Most dealers recommend Dr. Pierce's medicines because they know what they are made of and that the ingredients employed are among the most valuable that a medicine for like purposes can be made of. The same is true of leading physicians who do not hesitate to recommend them, since they know exactly what they contain and that their ingredients are the very best known to medical science for the cure of the several diseases for which these medicines are recommended.

With tricky dealers it is different.

Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to accept a substitute *of unknown composition* and without any particular record of cures in place of Dr. Pierce's medicines which are OF KNOWN COMPOSITION and have a record of *forty years of cures* behind them. *You* know what you want and it is the dealer's business to supply that want. *Insist upon it.*

We want you to try
Pompeian Massage Cream
at our expense

We don't wish you simply to take our word that Pompeian Massage Cream works wonders in building a healthy, clear complexion—we prove it conclusively by allowing you to prove it for yourself—and will give you a sample free, with full directions for trial.

An experiment: Wash your face thoroughly with soap and water. You *think* it's clean. Now apply Pompeian Cream as directed, and the dirt will be fairly rolled out by your finger tips, the rich, red blood tingles thru every tissue. This experiment is well worth trying. Cost is nothing—simply come in and get the sample.

Woman Kills Herself.

Chicago, Dec. 6.—Mrs. Rose Vzral committed suicide because, it is believed, rumors were circulated regarding the numerous deaths in her immediate family within the last 10 months. Her husband, Martin Vzral, died first, and within nine months four of her children died, the cause of each death being given by the attending physician as "stomach trouble." An anonymous telephone message was sent to the police department, saying it was advisable that an investigation be made as all the members of the family were insured a short time before death. An investigation was begun, but it developed nothing definite.

Catarrh of the nose and throat lead you to at least ask us for a free trial box of Dr. Shoop's Catarrh Cure. Nothing so surely proves merit as a real, actual test—and Dr. Shoop, to prove this, earnestly desires that we let you make that test. This creamy, Snow White healing balm, soothes the throat and nostrils, and quickly purifies a foul or feverish breath. Call and investigate. C. E. Anderson.

LIONS TOO MUCH FOR CUPID

This Daniel Lost a Bride by Not Entering Their Den.

Daniel Lund of Oakland, Cal., recently failed to muster courage to go into a den of lions to wed Miss Dolly Castle and is still single, says an Omaha (Neb.) dispatch.

Lund won the girl in Oakland last summer. She is a lion tamer. When he wrote and begged her to set the day she said to come to Omaha and she would be ready. He came, procured a marriage license and engaged a minister.

Just before the hour set for the marriage Miss Castle said to her lover: "I will marry you if you will go in this den with the lions and have the ceremony performed. Otherwise our engagement is broken."

Lund says he honestly tried to muster courage, but he failed.

"A man who hasn't the courage to do once what I do every day is not a man I care to marry," said Miss Castle.

Unique among cemeteries is that of L'Oued-el-Kebir, Algiers, in many of the graves of which are dozens of medicine bottles. The natives of the territory bury with the deceased the bottles which held the medicines used in the last illness.

NEW YORK FASHIONS

Patterns For a Pretty Gown For Special Occasions by Martha Dean—Nos. 6555 and 6556

How feminine fancy revels in the soft filminess of mulls and chiffons and laces of every description! The woman who can withhold her admiration at a vision of lace effects is lacking in the sense of the beautiful. Exquisite results can be obtained whether the lace is real or whether it costs but a few cents a yard. Much more depends upon the taste which selects and fashions the gown and upon the design chosen. In these days, when sheer materials beautifully woven and colored are to be had for a mere song, the clever woman who is willing to give the time to make her own gowns will have two to every one which her less ambitious sister must have made. Here is an attractive design tastefully trimmed and still very simple in effect. The round yoke, outlined and trimmed with rows of valenciennes insertion, is a pleasing feature of the waist. The tiny tucks are effectively arranged to give fullness to the blouse. This same arrangement is repeated in the skirt, giving the tucks nearest the center of waist and skirt the appearance of being continuous. Tucks fit the skirt smoothly over the hips, and provide fullness to the lower part. This fullness, so desirable in skirts of soft materials, is augmented by the tucked flounce. Soft lawn or batiste in white, pale blue, pink or lavender, with valenciennes insertion, would be appropriate in making this costume, as would messaline, pongee or other lightweight silks. Waist, No. 6555, is in five sizes, from 32 to 40 inches bust; skirt, No. 6556, is in six sizes, from 20 to 30 inches waist.

Basket Ball Aiming High

Manager Porter of the high school basket ball team, is trying to arrange a game with the team from Company H, of the Ohio National Guards at New Lexington. If the game is scheduled, it will be played in the city hall Friday evening, Dec. 14, opening the season in this city. This team is a very fast one, and will be a hard one for the High School to open with. They recently defeated O. S. U. by the score of 32 to 22.

The manager of Circleville, has replied to Manager Porter regarding games, and offers to come here if all expenses are paid, but will give no return date. The High School is hunting teams that can play return games at home as well as abroad, and the date will not be arranged.

Lynching Attempted on Train.

Topeka, Kan., Dec. 6.—Two Texas cowboys tried to hang John E. Lewis, a negro of Wichita, on a westbound Santa Fe passenger train, between Lawrence and Topeka. Three times they placed a rope around Lewis' neck, but each time he got loose, and after the third attempt he jumped from the train and escaped. The Texans prevented the other passengers from interfering by flourishing revolvers. Lewis wore a Knights of Pythias pin, and the cowboys said they did not like to see a negro "putting on airs." There were no arrests.

"WHY do I take Cardui"? writes Mrs. Jelemma Mullins of Odessa, W. Va. "Because, after suffering for several years with female trouble, and trying different doctors and medicines without obtaining relief, I at last found, in Wine of Cardui, a golden medicine for all my ills, and can recommend it above all others for female complaints."

Cardui furnishes safe relief for backache, headache, periodical pains, irregular, painful or unhealthy catamenial flow, and all ailments from which sick women suffer. A perfect tonic for delicate women. A pure vegetable medicine for girls and women who are subject to the complaints peculiar to their sex. Has benefited over a million who used to suffer as you do.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at $1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

IT OVER THE NEWARKS AGAIN

Still undefeated Coshocton won the polo game from Newark Wednesday night by the score of 5 to 4. The game was the fastest one played this season, and the excitement was intense throughout the entire game. The game was called promptly at 8 o'clock, and three ten minute periods were played.

During the last half, Thompson was struck in the back part of the head by the ball. and put out of the game a few minutes. He recovered in time to go into the game again, and scored the winning goal, with the assistance of Pope.

The crowd, while not as large as at the last game on account of the inclement weather was very enthusiastic, and proved that the game is becoming very popular here.

Heath won the first rush, and Barker scored Newark's first ggoal after one minute and thirty-five seconds of play, Thompson caged a goal, but the net in the cage was torn, and the ball bounced out again, and did not count. Newark won the second rush, and after 3 minutes and 20 seconds of play, Barker caged a second goal for Newark. Thompson won the third rush, and in 15 seconds of play. Boyd drove our first goal, with the assistance of Thompson. Heath scored a goal for Newark after 20 seconds of play; Thompson won the next rush and referee 'Pud" Carr called a foul on Newark for holding. This ended the first period, with the score 3 to 1 for Newark.

The second period started with a whirl, and after 18 seconds play, Thompson drove a goal unassisted. Then after 13 seconds more play, Pope drove a goal which tied the score. Five minutes and 38 seconds of the period had passed in rapid playing, when Barker drove Newark's fourth goal, and the remainder of the period was passed in fast play The score was 4 to 3 in Newark's favor.

Newark won the first rush in the third period. and Thompson shot a goal after 43 seconds of play, again tying the score. Both sides worked hard to score a goal before the end of the half, and in the excitement, Thompson was hit in the head with the ball. He fell flat. and was out of the game several seconds. He recovered and returned to the game and after 7 minutes and 37 seconds of play. with the assistance of Pope drove the winning goal.

The two teams lined up as follows:

Coshocton		Newark
Thompson	first rush	Heath
Boyd	second rush	Barker
Pope	center	Smart
Smythe	half back	Lake
Reed	goal tender	Swede

Deeds played second rush in second half.

Thomas was sub on the Newark team.

The game was a remarkably clean one judging from the intense rivalry that now exists between the two teams, and each player acted in a sportsman like manner at all times.

It looks like Coshocton would duplicate the record of last season and close the season with a clean record for Newark will now have to admit that we have a little the best team

Goals—Barker 3; Heath 1; Boyd 1; Thompson 3; Pope 1

Rushes—Coshocton 6; Newark 5.

Both goal tenders did excellent work, each one making a great many stops.

Referee, "Pud" Carr.

Time keeper, Dash Carnes

Barker was again Newark's shining star, and although he toyed with the ball as before, our lads knew better how to steal it away and a number of goals were probably prevented by getting the ball from him just as he was about to shoot it toward the cage.

The new goal tender is a "peach" and covered his cage very effectually

Next Polo Game Will Be Utica

The next polo game here will probably be with Utica. Manager Fuhr is trying to arrange for them to be here the latter part of next week, and he thinks he will be successful. Although they have been defeated twice by Newark. they will present a strong line up to Coshocton, havving greatly improved their weak spots.

Coshocton will play with Newark in that city Friday night, and a number of "rooters" expect to accompany the team.

ON MERIT

Memphis Gold Cup Was Won, Says Trotting Association Board.

New York, Dec 6 —The Memphis gold cup dispute was officially ended when the board of review of the National Trotting association decided that the trophy had been won on merit and dismissed the charges against E. E. Smathers of New York. The case, which was taken up by the board at a continuation of its winter meeting, grew out of the alleged drugging of Lou Dillon at the Memphis (Tenn.) meet, on Oct. 19, 1904. Smathers, who owned Major Delmar and drove him in the race, was charged with having been cognizant of ill treatment of C. K. G. Billings' mare, which resulted in the latter's utter failure to show form in the race, and the winning of the $5,000 gold cup by Major Delmar.

The Murder of His Sweetheart

Herkimer, N. Y., Dec. 6—**Chester Gillette, facing death in the electric chair for the killing of "Billy" Brown, has confessed to his counsel that he killed the girl.**

The condemned man tried to deceive his attorneys, but **a false slip revealed the atrocious murder.** The confession became known today. Part of it was overheard by prison officials. Gilette was recounting his story of how the girl had taken her life to Senator Mills in his cell. In a moment of mental lapse Gillette said:

"When she came up the first time after sinking in the water I struck her —"

"You wretch. why didn't you tell me this before?" Senator Mills is reported as saying.

Smyser Working For R. F. D. Boys

Representative Smyser has this week introduced a bill in the house to increase at the rate of $200 a year the salaries of all rural letter carriers It carries a total appropriation of $5,000,000. During his recent campaign for re election Judge Smyser promised the carriers of his district that he would introduce such a measure when he came back to Washington this winter and the introduction of the bill was simply in accordance with Judge Smyser's policy of keeping his word gogod. Judge Smyser is also workin for $20,000 more for the Newark public buildin which amount is said to be needed in the estimates.

Fight in Polo Game.

New Castle, Dec. 6—(Special)—New Castle defeated Canton last night in the greatest polo game ever played in the Inter-State League and probably in the country. For three long periods and 20 minutes and 35 seconds' extra time no goals were made, then Lewis shot the ball into Canton's cage, winning the contest. It was a sensational contest from the tap of the gong in the first period until the goal was scored. Carrigan and Bannen did the brilliant work for Canton. The playing was nearly all done in the visitors' territory and the locals shot three in and out goals during the game. In the third period Canton came within an ace of scoring and a fight followed as a result. The ball got lost and when discovered was between Goal Tender Harper's feet, Lewis managed to kick it out of the way, but Canton players claimed the ball was pulled from the cage Referee Latham, who was standing near, declared no goal. At this Bannon pulled off his mask and struck at Latham, who dodged the blow and caught Bannon on the point of the jaw with his left He then picked him up and threw him through the net. Police rushed onto the palying surface and prevented further trouble.

Dennie Potts is Near Death

Dennis Potts, of Mogadore, a left handed base ball pitcher lately with the Kent base ball team ,is dying. He was at one time pitcher for a team from Scio and is well known to many people in this city.

Two years ago when Prince was giving Coshocton professional base ball, Dennis Potts pitched against us for Lancaster. Things were not coming our way very rapidly, and "Beany" was on the side line coaching. He shouted to the pitcher, "Let me see that ball; it is ripped." Potts threw the ball to him. and Prince stepped aside and let it pass. Doc Abbot was on second base scored a run before the ball was recovered.

Jesse Dunfee A Good Burglar

The business department of The Age was crippled a few hours Thursday morning owing to the fact that in some mysterious manner the money on hand, account books and other office valuables, along with the key which opens the inner cash box were locked inside the box. For a while there was weeping and wailing but Keagy & Lear were notified and Jesse Dunfee arrived on the scene and in a short time the valuables were brought forth. The Age is now ready to recommend him as a first class burglar.

Second base, Pete Gehring and Gross

Third base, Hook and Powelson

Outfielders, Tish, Slaughter, Duffy, Carter, Earl Smith and Barcus

And many others who played in the county league last season.

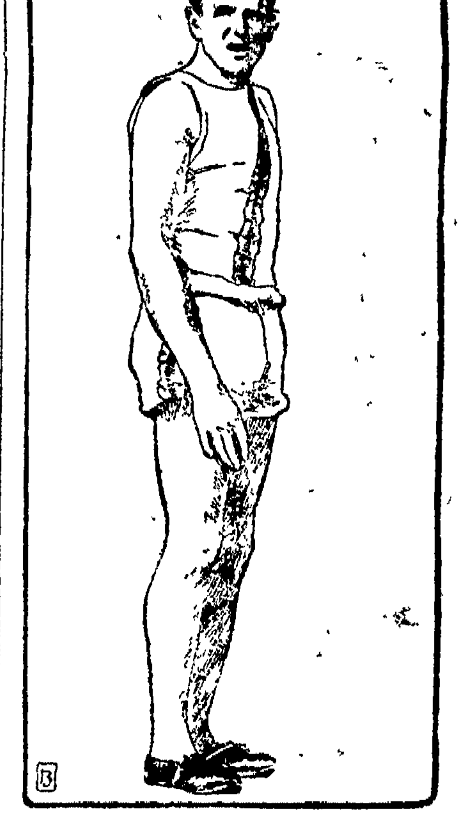

These men are all fit for fast company, and a team picked from them would be the fastest amateur team in this section of the state.

A New Western Sprinter

Hamilton of Iowa State NormalSchool, Who Beat Picked Stars of Half a Continent---He Rose to Fame In a Day---Muscular and Speedy.

Hamilton, the Iowa State Normal school sprinter, is looked on as a coming national champion in his specialty.

The lad went to the recent conference meet at Evanston, Ill., practically unknown except to the people of his own town. No one believed that he

SPRINTER HAMILTON, IOWA STATE NORMAL SCHOOL.

was other than a track man of ordinary ability. True, he had covered several fast trials, but his lack of experience was thought to be a great handicap. "He will get rattled when he appears in front of the big crowd gathered from a score of states," was one opinion expressed concerning him.

But "Hammy" didn't get rattled. As a plain matter of fact he rattled some of the veterans.

He won in decisive style two firsts for his school against the picked men of the west and middle west. He won the 100 yard dash and the 220 yard dash from the stars of Chicago, Michigan, Wisconsin, Illinois, Indiana and Missouri.

The lad who went forth unnoticed returned to his school to be greeted by a hundred howling fellow students, a brass band and a torchlight parade.

Hamilton is a sturdy lad, unusually strong and muscular for a sprinter. But his weight and muscles do not interfere with his speeding qualities.

MISS FREDERICA MORGAN, WASHINGTON BEAUTY.

Washington society is cosmopolitan owing to the presence of many ladies and gentlemen of the foreign legations at the capital. Many types of beauty are represented by the ladies. There are so many beautiful girls, both American and foreign, that it is not easy to determine who is the prettiest. This season, however, to an American girl, Miss Frederica Morgan, is accorded the distinction of being the most beautiful debutante at Washington

Leaped From Train In Front Of A Running Freight

Three colored men from Newcomerstown who intended to return home on No. 6 Wednesday afternoon thought they had missed the train which was nearly two hours late. One of the trio jumped aboard an east bound freight train near the Will Merkley livery barn. The others expected the others to follow. They did not do so and he jumped off again. By this time, a freight train on the west bound track was backing toward him, but he did not see it. He dropped to the ground just in front of this train, and managed to get out of the way. Bystanders who saw his peril were badly frightened for a few moment for they were expecting to see him ground to pieces.

ORIOLES SANG WAY INTO THE HEARTS OF ALL

The program given by the Oriole Concert company at Grace church Wednesday evening delighted thoroughly the audience which filled the church almost to its fullest capacity. The company was an attractive group of young women each member of the quartet being an artist in her own line.

Miss Alice Stire, the whistler, was especially charming, her selections being well chosen and each note given with a bird-like clearness.

Miss Evelyn Fargelt combined the gift of story telling with that of a characterist the blending of the two being most happy and Miss Tinker's beautiful contralto voice was heard to good effect in all her well chosen selections, particularly pleasing to her audience was "Genevive" which she sang instead of "Annie Laurie" which the program announced as the second number in her first group of songs.

The difficult work of the accompanist was admirably done by Miss Judith Anderson and in her solo number "The Wedding Day" by Greig she exhibited excellent technique and artistic feeling.

Throughout the program was excellent and maintained the high standard set by the People's Lecture Course.

Findlay Still After Octopus

[By Telegraph to The Age]

Findlay, O., Dec. 6.—Attorneys for the Standard Oil company of Ohio filed in the court of common pleas motions to quash the indictments against John D. Rockefeller, the Standard Oil company of Ohio, J. M. Robertson, M. G. Vilas and H. P. McIntosh of Cleveland, officers of the Standard Oil company of Ohio. It is stated in the motions that the indictments charge several separate and distinct offenses in a single count; that the indictments are uncertain and indefinite and do not charge an offense in such a manner as to enable the defendants to ascertain the character of the charge made against them. It is also charged that several distinct offenses against the several defendants are improperly joined in a single indictment and in a single count.

Bill Passed by House Permits National Banks to Make Loans.

Washington, Dec. 6. — The house, waiting on the report of appropriation bills, began its legislative grind by passing three measures, incorporating the national German-American alliance, authorizing the secretary of the treasury to duplicate gold certificates in lieu of ones lost or destroyed, and the bill amending the national [illegible] permitting national banks [illegible] loans on real [illegible] and limiting the [illegible] bill has been one of the [illegible] measures, and the leaders [illegible] house from that section lined up generally in favor of the legislation, which, it is asserted, would go far toward popularizing the national banks. The opponents of the bill, Democrats and Republicans, insisted that real estate was not a proper security for a loan.
